ABOUT ME

I've been in the IT industry since 2008, and over the years, I've seen technologies come and go. This constant evolution has kept me curious and continuously learning. I train professionals and students in technologies like Angular, ReactJS, NodeJS, MongoDB, Laravel, jQuery, and JavaScript—across both corporate settings and academic institutions—helping them stay updated in a fast-changing environment.

WORK EXPERIENCE

GitLab - Technical Instructional Designer   Oct 2023 - Apr 2024
I contributed to the Education Services at GitLab by creating and maintaining content for both instructor-led and self-paced training. I collaborated with SMEs and Managers to explore new developments in CI/CD and DevSecOps, while continuously working to improve the quality of content and training delivery.

MongoDB - Technical Curriculum Developer   Dec 2020 - Oct 2023
I contributed to the Professional Services at MongoDB by developing and maintaining content for instructor-led training. I collaborated with Consulting Engineers to explore advancements in NoSQL technologies, particularly MongoDB Atlas and its ecosystem, and worked to continuously enhance content creation and delivery.

Corporate Trainer - Self-employed   Jul 2017 - Nov 2020
I worked with companies to enhance their employees' skills across various technologies and delivered training across India on platforms like Angular, ReactJS, VueJS, NodeJS, Express, MongoDB, PostgreSQL, Laravel, and Drupal. I also mentored students through campus training programs, preparing them for successful careers in the IT industry.

Agile Infoways - Project Lead and Trainer   Aug 2013 - Jul 2017
At Agile Infoways, I led a 30-member team, focusing on their technical and professional growth. I worked with technologies like NodeJS, MongoDB, PHP, Laravel, Angular, and ReactJS. I trained employees in both soft skills and technical areas, supported new joiner onboarding, collaborated with the BD team to close projects.

Infotrex Services - Corporate Trainer   Jan 2012 - Dec 2012
At Infotrex Services, I led R&D efforts in PHP and MySQL and represented the company as a Corporate Trainer, delivering training across multiple organizations. I was also involved in software development, working with a web development team to build projects using PHP, MySQL, PostgreSQL, jQuery, HTML, and CSS.

Sedulous Software Solutions   Jun 2009 - Dec 2011
I developed client solutions using PHP, WordPress, and jQuery, while managing web development and project planning to ensure timely delivery. I also collaborated closely with designers to deliver high-quality, client-focused products.
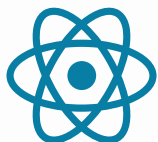

CORPORATE TRAINING EXPERIENCE

I have delivered corporate training sessions for leading organizations such as Wipro, Capgemini, Conduent, Aviva, Global Logic, and Etisalat, covering technologies like NodeJS, MongoDB, Express, Angular, and React. I have also conducted training programs at various colleges, preparing students for careers in the IT industry. In addition, I have closely collaborated with prominent EdTech companies including Edureka, Simplilearn, KnowledgeHut, and NIIT to design and deliver high-quality technical training content.
